

## SARA/K6SA 2 METER NET CONTROL SCRIPT

Good evening, this is *(name, call sign)*, net control tonight for the Saratoga Amateur Radio Association's weekly net. This net meets every Sunday night at 9:00 PM local time, on the K6SA repeater on a frequency of 146.655 MHz, negative offset, PL tone of 114.8 Hz.

This net may be broken at any time for emergency traffic. Is there any emergency traffic at this time?

*<break>*

I have a report (no report) for the net tonight. If there are any stations with reports for the net, please identify now.

*<break, and proceed with all reports/announcements>*

Having heard all (no) reports for the net, I will now ask that each station check-in by giving your name and call sign. I will acknowledge each station separately.

Please go ahead and check-in now, and if you have any traffic for the net, please so indicate.

*<break, and acknowledge each check-in>*

*<if any station has traffic for the net, tell them to proceed with same>*

I would like to remind all listeners that we accept check-ins from any and all local hams, whether members or visitors, so if you are listening please join us by giving your name and call sign now.

*<break, and acknowledge any additional check-ins>*

Is there any other business for the net tonight?

*<break><Net Manager: use this opportunity to confirm that this Net Control will be available to check in to the SVECS net on Tuesday night, and to determine who will be net control next week>*

There being no further business, this is \_\_\_\_\_, net control, closing the 2 meter net for the Saratoga Amateur Radio Association at \_\_\_\_\_ local time. We had \_\_\_\_\_ check-ins tonight.

Thank you for checking in with our net. The frequency is now open for regular use. This is \_\_\_\_\_, clear.

Note:

Traffic is a message intended for another member of the net.
