## ***THE SARATOGA AMATEUR RADIO ASSOCIATION (SARA) ANNOUNCES FIELD DAY 2008!***

### ***COME SEE AMATEUR RADIO IN ACTION!***

Visit Field Day and see how amateur radio operators make contacts with other stations across North America using equipment deployed in a remote location with emergency power. The SARA station will use long distance propagation, shorter-range communications with stations in Northern California using line of sight propagation, and possibly long range communications using a satellite. Visitors will also have the opportunity to listen-in and even operate the radios themselves with the guidance of experienced operators. Information will be available on how to learn more about amateur radio, and how to earn your license.

*Walt, W6WS, logs contacts on a PC while his son, Sammy, makes contacts on the radio. Everyone is invited to join us for Field Day 2008; this is a family event!*

***Field Day 2008 begins on Saturday, June 28th, at 11:00 AM.***

Field Day is an annual event designed to test the state of readiness of the Amateur Radio community across the United States. The purpose of Field Day is to demonstrate the communications abilities of the amateur radio community to the public and to keep Amateur Radio Operators up-to-date in skills and operational experience. The event is a coordinated operating contest for Amateur Radio Operators (also called "Hams") in the US who deploy their stations and operate on the radio for 24 hours continuously to contact as many other Amateur stations as possible.

### ***SARA is a serious contender!***

- + Ranked No.2 in the ARRL Pacific Division & State of California in 2007
- + Ranked No.1 in Santa Clara Valley 2005 thru 2007
- + Ranked No. 2 in California in 2007, and No. 4 in 2006

***The Saratoga Amateur Radio Association is one of the best - come check it out!***

*Christina, WO1NDR, operates one of two radio stations during Field Day 2007. She uses the headset-microphone to talk to other stations and records her contacts with the laptop.*

## **Directions**

Proceed for approximately 1.1 miles from the intersection of Highway 9 & Highway 35 (Skyline Rd) and then look for a driveway on the left-hand (East) side. There will be a turnout and a call box on the right-hand side of the road just opposite the driveway. You may have to open the gate to get in. Please close the gate behind you. Proceed up the driveway and park off the road. The site is within a fenced area. The distance from points A & B on the map is about 8.3 miles and takes about 15 to 17 minutes to travel.
